About Me

I am a Senior WordPress Developer with 7 years and counting of experience in developing, maintaining, and supporting WordPress websites. I currently work with an Australian client, managing healthcare and plastic surgery websites, including website updates, troubleshooting, performance improvements, backups, security, and post-update fixes. I have experience with custom WordPress themes and plugins, Elementor, Divi, PHP, JavaScript/jQuery, ACF, Gravity Forms, Yoast SEO, website hosting, SSL, Cloudflare, and WordPress security best practices. I also use AI tools to improve development workflows, troubleshoot issues, research solutions, and increase productivity.

WORK EXPERIENCE

Specialist Practice Excellence (SPE) • Freelance

Senior WordPress Developer | Aug 2025 – Present

I build and manage WordPress websites for medical and specialist practices in Australia, the UK, and the US. My work includes building pages with Elementor and Divi, converting designs into responsive layouts, developing custom PHP and JavaScript/jQuery solutions, working with ACF and Gravity Forms, managing Yoast SEO, troubleshooting WordPress issues, updating plugins and themes, handling website content, backups, security, and performance improvements.

Logix BPO

Web Developer | Jan 2025 – Aug 2025 • 6 months

I convert Figma designs into responsive web layouts using HTML, CSS, and WordPress builders such as Elementor and Divi. I manage website hosting, SSL, and security using Cloudflare and WordPress best practices. I also develop and maintain custom software projects, including HRIS systems, using Laravel and Livewire.

Innocentrix Philippines

Web Developer | Jul 2021 – Dec 2024 • 3 yrs 6 mos

I convert website designs and layouts into responsive websites and build them using WordPress as the content management system. I also assist with custom software projects, including the development and maintenance of web-based systems and applications.

Proweaver

WordPress Developer | Mar 2019 – Jul 2021 • 2 yrs 5 mos

I specialize in converting design files into HTML and integrating them into custom WordPress themes. I handle WordPress maintenance, update website content provided by writers, and build responsive websites using Elementor.
